GTS

GEOTECHNICAL
TESTING SERVICES PTY LTD

Geotechnical & Environmental Consultants

Independent Construction Materials Testing Laboratory

- Soil, Concrete and Aggregate Testing Laboratories
- Site Laboratory
- Construction Material Testing
- Geotechnical Investigations
- Land Capability Assessments
- Contamination Assessments
- Environmental Management plans
- On-site Wastewater Management
- Site Classifications – Residential and Industrial
- Contract Drilling

On time, on site, on budget:

GTS has over 40 years experience in laboratory testing of concrete, soils and aggregates, over 20 years of experience in geotechnical and environmental consulting and over 30 years of experience in geotechnical and environmental drilling.

Operating a Bendigo laboratory initially run by La Trobe University, GTS is accredited by the National Association of Testing Authorities (NATA) and complies with the requirements of ISO/IEC 17025.

Growth:

GTS is a growing business. From our initial inception in 2002 of one operation in Bendigo (Vic).

We have now expanded to six offices with more in the planning. That means we can deliver testing services as well as land, soil and environmental studies in a wide service area, including on your site.

Services:

With its office and laboratory network including site laboratories, GTS can service anywhere in Australia.

Flexible and responsive, GTS works for government agencies, primary industry, statutory authorities, small business, corporates, multi nationals, professionals and individuals.

We also offer a one-stop-shop for sewered and non sewered residential developments.

Value:

Cost effective, smart and local, GTS works with clients and stakeholders to plan and deliver what is needed, when it is needed.

Our expertise in operations and consulting means on the ground strategic and practical services for our clients.

Professional:

GTS is professional, backed by qualifications and experience that set our work apart.

Our Work: - Construction Testing

- Sugarloaf Pipeline, SPA Alliance. All construction testing on the 89km pipeline (site lab)
- Northern Victorian Irrigation Up-Grade, Future Flow. Construction testing.
- Honeymoon Uranium Mine, Ertech. All construction testing (site lab, SA)
- Puckapunyal Army Base.
- Bridgework on various sections of the Calder Freeway.
- Level one supervision, Various projects including residential subdivisions to the Aldinga Wastewater Treatment Plant

Fast, smart decisions:

We are proud of our success, which comes from meeting the standards expected by our clients and regulators.

GTS provides accurate, reliable and timely information and reports to underpin fast, smart decision-making for our clients.

Our environmental and engineering consultancy is experienced in providing key services to the general construction industry, mining and other infrastructure operations.

Our Work: - Consulting

Geotechnical Investigations:

- Pipeline alignment, Bendigo – Axedale.
- Pipeline alignment and pump stations, Bendigo – Castlemaine Link.
